Complete the table by indicating the correct option for each task.

Complete the table by indicating the status of integration of these two aspects as well as write a comment on the integration progress where needed. The options for the Integrated column are Yes/No/Partially. The options for the Integrated column are S & G (signals and slots) or calls (function calls). Modify the table if needed.

Tasks	Integrated?	Method	Comment
AI and Game Server integration	Yes	Function calls	AI game option is selected in GUI
GUI and Networking integration	Yes	S & G	Facilitates a game of 4 real players
Game Server and Networking integration	Yes	S & G	Facilitates 4 real players and 4 AI bots
